EURO TOOL, Inc. - Your Source for Success®

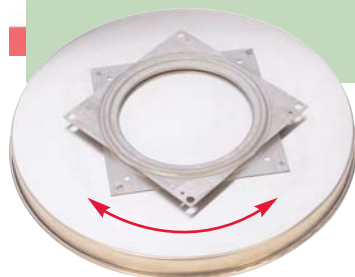

## SMALL or LARGE?

### ROTATING SOLDERING PANS

Okay...so these are not exactly pizza pans, but they sure are handy for soldering! Our **NEW** soldering pans rotate 360° with easy access. The heat reflecting pumice is perfect for supporting your project in any position - flat or embedded. Choose from the 7" diameter pan with or without an attachable third hand or for more soldering space we offer our bigger 12" diameter size with attachable third hand! Each pan includes pumice.

So "cook" up something beautiful with our handy rotating soldering pans. They are sure to be a best seller on your menu!
