EURO TOOL, Inc. - Your Source for Success®

NEW Designs of Time-Tested Tools

Designed by Jay Whaley...

With 30 years plus experience, Jay is a skilled goldsmith, tool designer and inventor. He has taught at a major university as well as his own studio in Southern California. His passion for the metalsmithing and jewelry artist trade has led him to invent and improve the tools used in the industry. These inventions have helped to make jewelers more efficient and improve their quality of work. Check out these two new tools with the quality you expect from a name you trust.
