EURO TOOL, Inc. - Your Source for Success®

SHEAR....comfort, ease of use, control!

XURON
CORP.

Our newest **Xuron Shears** are designed and manufactured for cutting high strength fibers and metal. The serrated version is terrific for cutting Kevlar®, Dandyline® and Fireline® and other high strength stringing materials. The non-serrated version of the Xuron Shear is ideal for cutting metals and wire with a shear action for a flush cut every time. Cuts up to 16 gauge soft wire and 18 gauge soft sheet. Both feature return springs and soft, non-slip rubber handle grips for comfort, ease of use, and exceptional control.

Made in USA

Stock	Description
SHR-691.80	Xuron® Shear, Serrated
SHR-691.81	Xuron® Shear, Non-Serrated
